-
- Yes, we participate with one (or more) innovation(s) in 'TechAward 2018'.

Please send back the completed registration form **and** the attached form 'details novelty'.

Yes, I do agree with the conditions:

- we are exhibitor at World of Technology & Science 2018;
- exhibitors are allowed to participate with more than 1 innovation;
- the total jury consists of 9 members / 3 members per category;
- 3 galleries will be placed at the exhibition floor;
 - 1 gallery for World of Laboratory
 - 1 gallery for World of Electronics
 - 1 gallery for World of Automation and World of Motion & Drives
- each gallery consists of 4 innovations;
- Visitors of the fair website (www.wots.nl) vote on the submitted novelties;
- a jury of nine members will eventually choose out of the submitted novelties the nominations for the gallery (taking into account the voting preferences of the visitors)
- the 12 most popular innovations will get a place at the gallery with an announcement of the stand number and name of exhibitor;
- the winner will be honoured and will receive an award;
- each exhibitor who delivers an innovation will pay € 195,- per innovation;
- the 12 most popular innovations will pay € 595,- contribution for presentation costs per innovation.

Details novelty TechAward 2018

Details of your novelty

Name manufacturer, Product name, Product details, Producttype...

Picture and/or promotional film of novelty:

We would like to receive an image (high resolution) or promotion movie to put on the fair website.

Describe short and concisely the functionality of the novelty (technical functionality) and the innovative power. What are other benefits? Please describe as many aspects as possible, so the jury will have a complete picture of your innovation (max. 750 words)

Note: On the basis of the submitted material, the jury must be able to judge your novelty on the 4 criteria (see next page)!

What is your innovation? How does the novelty work?

What makes your novelty distinctive / innovative?

(Based on the following 4 criteria, as applicable: innovativeness, market value, business potential and functionality. The percentages behind the criteria are the weighing factors of the jury.)

1. Innovativeness (40%)

The submitted novelty is innovative, refreshing, original and practical. The novelty has been applied or demonstrated and introduced after July, 1 2016.

2. Added value for the user (20%)

The submitted novelty has an added value for the user in relation to investment and costs. The functionality meets the requirements of the user. And the competitive position is improved.

3. Business Potential (20%)

The size of the business potential for the submitter. Are there other areas in which the novelty can be applied, in the Netherlands or abroad? Will the market soon be conquered? What contribution does it give to the Dutch economy?

4. Other advantages (20%)

Are there any other advantages? Suggestions: for the environment, health & safety, sustainability, ergonomics, working conditions, employment aspects, energy consumption etc.
